Mother's Day Gift Guide - SheroBox

*** Complimentary product received in exchange for an honest review. ***

I just love subscription boxes, and I especially enjoyed boxes that are filled with girly things that make me smile. They are always fun to open, but a few shine above the rest. With the SheroBox, it's obvious that each gift is selected with care. Inside you'll find a diverse selection of goodies that will make any woman feel like a hero every day. Not just on Mother's Day, but all year long.

This yummy scone mix from The Invisible Chef is quick and simple to make, and the perfect evening snack to enjoy with a cup of tea. The flavor I received was ginger and lemon, and it's a great choice for spring.
